

### Math Tutoring Services at the Science Help Centre

Looking for assistance with your math questions? The Science Help Centre, located in Ken Lepin Building room S201, offers a team of math tutors who are here to help. Our tutors are ready to provide help with your first-year math courses and UEPREP. You can find our schedule on the [Science Help Centre webpage](#). It is most useful if you bring your progress on any math questions along with your class notes, so tutors can better assist you.

**Available to TRU Students:** Our math tutoring services are open to all TRU students who are enrolled in math courses or UEPREP courses. We do not currently extend our services to high school students.

**No Cost:** Our math tutors are available to you at no charge.

**Drop-in:** No appointments are necessary. You can visit the Science Help Centre during the tutors' scheduled shifts, ensuring you receive help at your convenience. Please check the tutors' schedule below.

**In-Person Assistance:** Currently, we only offer in-person tutoring. If you're on campus, our tutors will be there to guide you through your math challenges. OL students are welcome if they can come to campus for help.

**Beyond First-Year Courses:** While our focus is on first-year math courses like Calculus 1, Calculus 2, Linear Algebra, and Discrete Math, don't hesitate to bring questions from upper-level math courses. Our tutors may still be able to assist.

**Additional Services:** In addition to tutoring, we also provide review sessions for most first-year math courses during final exams. Furthermore, the TRU Math Club organizes a variety of activities throughout the year, most of which you can find in the Science Help Centre. For more information on the Math Club's events and activities, visit their [webpage](#).

**Becoming a Tutor:** During the last few weeks of each semester, there will be a job ad posted on Career Connections at TRU for hiring tutors for the following semester. We will review the submitted applications and invite qualified applicants for an interview.

## Math Tutoring Schedule at the Science Help Centre Winter 2024, S 201
